

std::true_type

```
classDiagram
    class v8_internal_detail["v8::internal::detail"] {
        ::is_simple_subtype< MaybeWeak< T >, MaybeWeak< T > >
    }
    class std_true_type["std::true_type"]
    v8_internal_detail --|> std_true_type
```

The diagram consists of two class boxes. The top box, labeled 'std::true_type', has two empty rectangular compartments below its name. The bottom box, labeled 'v8::internal::detail', has three compartments: the top one contains the text 'v8::internal::detail', '::is_simple_subtype< MaybeWeak< T >, MaybeWeak< T > >', and '< T > >'; the middle and bottom compartments are empty. A blue arrow with an open triangular head points from the top compartment of the bottom box to the bottom compartment of the top box, indicating an inheritance relationship.

v8::internal::detail
::is_simple_subtype<
MaybeWeak< T >, MaybeWeak
< T > >
