

v8::internal::MaybeHandle
::ToHandleChecked

```
graph LR; A["v8::internal::MaybeHandle  
::ToHandleChecked"] --> B["v8::internal::MaybeHandle  
::Check"]
```

A diagram showing a call from the `ToHandleChecked` method to the `Check` method. The left box is shaded gray and contains the text `v8::internal::MaybeHandle::ToHandleChecked`. A blue arrow points from the right side of this box to the left side of the right box. The right box is white and contains the text `v8::internal::MaybeHandle::Check`.
