

v8_inspector::V8Debugger
::isPausedInContextGroup

```
graph LR; A["v8_inspector::V8Debugger  
::isPausedInContextGroup"] --> B["v8_inspector::V8Debugger  
::isPaused"]
```

A diagram showing a call from the `isPausedInContextGroup` method to the `isPaused` method. A blue arrow points from the left box to the right box.

v8_inspector::V8Debugger
::isPaused
