

v8::internal::wasm
::f16_le

```
graph LR; A["v8::internal::wasm::f16_le"] --> B["v8::internal::Float16::ToFloat32"]
```

A diagram showing a conversion from a WebAssembly f16 value to a JavaScript Float32. It consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is shaded gray and contains the text 'v8::internal::wasm::f16_le'. The right box is white and contains the text 'v8::internal::Float16::ToFloat32'.
