

v8::internal::maglev
::Int32BitwiseNot::SetValue
LocationConstraints

```
graph LR; A["v8::internal::maglev  
::Int32BitwiseNot::SetValue  
LocationConstraints"] --> B["v8::internal::maglev  
::Int32BitwiseNot::value_input"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow pointing from left to right. The left box is white with a black border and contains three lines of text: 'v8::internal::maglev', '::Int32BitwiseNot::SetValue', and 'LocationConstraints'. The right box is gray with a black border and contains two lines of text: 'v8::internal::maglev' and '::Int32BitwiseNot::value_input'.
