v8::internal::SharedMacro
AssemblerBase::F32x4Qfms

v8::internal::Assembler::ps

```
graph LR; A[v8::internal::SharedMacroAssemblerBase::F32x4Qfma] --> C[v8::internal::Assembler::ps]; B[v8::internal::SharedMacroAssemblerBase::F32x4Qfms] --> C;
```

The diagram illustrates a relationship between three V8 internal classes. On the left, there are two white rectangular boxes. The top box contains the text 'v8::internal::SharedMacroAssemblerBase::F32x4Qfma'. The bottom box contains the text 'v8::internal::SharedMacroAssemblerBase::F32x4Qfms'. On the right, there is a gray rectangular box containing the text 'v8::internal::Assembler::ps'. Two blue arrows point from the right side of the two white boxes to the left side of the gray box, indicating that the two white boxes inherit from or specialize the gray box.
