The diagram illustrates a dependency or relationship between two source components and a target component. On the left, there are two white rectangular boxes. The top box contains the text 'v8::internal::maglev', '::MaglevGraphBuilder', and '::CheckContextExtensions'. The bottom box contains 'v8::internal::compiler', '::BytecodeGraphBuilder', and '::CheckContextExtensions'. Blue arrows point from the right side of each of these two boxes to a single gray rectangular box on the right. This gray box contains the text 'v8::internal::compiler' and '::ScopeInfoRef::HasContextExtensionSlot'.
