

v8\_inspector::V8Console  
::Profile

v8\_inspector::V8Console  
::ProfileEnd

v8\_inspector::V8Inspector  
SessionImpl::profilerAgent

```
graph LR; A[v8_inspector::V8Console::Profile] --> C[v8_inspector::V8InspectorSessionImpl::profilerAgent]; B[v8_inspector::V8Console::ProfileEnd] --> C;
```

The diagram illustrates a mapping from two V8 console profile events to a single profiler agent. On the left, there are two white rectangular boxes. The top box contains the text 'v8\_inspector::V8Console::Profile' and the bottom box contains 'v8\_inspector::V8Console::ProfileEnd'. Blue arrows point from the right side of each of these boxes to a single gray rectangular box on the right. This gray box contains the text 'v8\_inspector::V8InspectorSessionImpl::profilerAgent'.
