

v8::internal::wasm  
::FastZoneVector::shrink\_to

```
graph LR; A["v8::internal::wasm  
::FastZoneVector::shrink_to"] --> B["v8::internal::wasm  
::FastZoneVector::size"]
```

A diagram showing a call from the `shrink_to` method to the `size` property. A blue arrow points from the left box to the right box.

v8::internal::wasm  
::FastZoneVector::size
