

v8::internal::ScavengeVisitor
::VisitJSApiObject

```
graph LR; A[v8::internal::ScavengeVisitor::VisitJSApiObject] --> B[v8::internal::JSApiObject::WithEmbedderSlots::BodyDescriptor::SizeOf];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'v8::internal::ScavengeVisitor' on the first line and '::VisitJSApiObject' on the second line. The right box is gray with a black border and contains the text 'v8::internal::JSApiObject' on the first line, 'WithEmbedderSlots::BodyDescriptor' on the second line, and '::SizeOf' on the third line.
