```

The diagram illustrates a mapping or inheritance relationship. Three source boxes on the left, each representing a specific match function in the `v8::internal::torque::ls::JsonGrammar` namespace, have arrows pointing to a single target box on the right. The target box represents a more general match function in the `v8::internal::torque::Grammar` namespace. The source boxes are for `MatchDecimalLiteral`, `MatchHexLiteral`, and `MatchStringLiteral`. The target box is for `MatchString`. The target box is shaded gray, while the source boxes are white.
