

v8::internal::UseScratch
RegisterScope::SetAvailableVfp

```
graph LR; A["v8::internal::UseScratch<br/>RegisterScope::SetAvailableVfp"] --> B["available"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains two lines of text: 'v8::internal::UseScratch' and 'RegisterScope::SetAvailableVfp'. A blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the word 'available'.
