

```
v8::internal::compiler  
::anonymous_namespace  
{code-generator-arm64::  
cc}::AdjustStackPointerForTailCall
```

```
graph LR; A["v8::internal::compiler  
::anonymous_namespace  
{code-generator-arm64::  
cc}::AdjustStackPointerForTailCall"] --> B["v8::internal::MacroAssembler  
::Claim"]
```

A diagram showing a call from a compiler namespace to a MacroAssembler::Claim method. The left box contains the call path: v8::internal::compiler::anonymous_namespace{code-generator-arm64::cc}::AdjustStackPointerForTailCall. A blue arrow points from this box to a right box containing v8::internal::MacroAssembler::Claim.

```
v8::internal::MacroAssembler  
::Claim
```
