

v8::internal::wasm  
::WasmInterpreterRuntime  
::ExecuteIndirectCall

```
graph LR; A["v8::internal::wasm  
::WasmInterpreterRuntime  
::ExecuteIndirectCall"] --> B["v8::internal::wasm  
::IndirectFunctionTableEntry  
::sig_id"]
```

A diagram showing a call from the `WasmInterpreterRuntime::ExecuteIndirectCall` method to the `IndirectFunctionTableEntry::sig_id` property. The left box is white with a black border, and the right box is gray with a black border. A blue arrow points from the left box to the right box.
