

v8::internal::Declaration
Scope::ForceEagerCompilation

```
graph LR; A["v8::internal::Declaration  
Scope::ForceEagerCompilation"] --> B["v8::internal::Scope  
::is_script_scope"]; A --> C["v8::internal::Scope  
::outer_scope"]
```

The diagram illustrates a method call from the `DeclarationScope::ForceEagerCompilation` method to two methods of the `Scope` class. The source method is highlighted in a grey box, while the target methods are in white boxes. Blue arrows indicate the direction of the call.
