

v8::internal::anonymous  
\_namespace{debug-coverage  
::cc}::ResetAllBlockCounts

```
graph LR; A["v8::internal::anonymous  
_namespace{debug-coverage  
::cc}::ResetAllBlockCounts"] --> B["v8::internal::DCHECK"]
```

A diagram showing a call from an anonymous namespace to DCHECK. On the left, a gray box contains the text "v8::internal::anonymous \_namespace{debug-coverage ::cc}::ResetAllBlockCounts". A blue arrow points from the right side of this box to a white box on the right. The white box contains the text "v8::internal::DCHECK".

v8::internal::DCHECK
