

```
v8::base::iterator  
< std::bidirectional  
_iterator_tag, T >
```

A diagram illustrating inheritance. A blue arrow points upwards from a shaded box containing 'v8::base::DerefPtrIterator< T >' to an unshaded box containing 'v8::base::iterator < std::bidirectional _iterator_tag, T >'. This indicates that 'DerefPtrIterator' inherits from 'iterator'.

```
v8::base::DerefPtrIterator< T >
```
