

```
cppgc::internal::anonymous  
_namespace{sweeper::cc}  
::ConcurrentSweepTask::SweepState  
OrYield
```

A diagram showing a call from a C++ garbage collector (cppgc) to a V8 JavaScript engine function. On the left, a grey rectangular box contains the C++ code: `cppgc::internal::anonymous_namespace{sweeper::cc}::ConcurrentSweepTask::SweepStateOrYield`. A blue arrow points from this box to a white rectangular box on the right, which contains the V8 function name: `v8::JobDelegate::ShouldYield`.

```
v8::JobDelegate::ShouldYield
```
