

v8::internal::maglev
::MaglevGraphBuilder
::GetSecondValue

```
graph LR; A["v8::internal::maglev  
::MaglevGraphBuilder  
::GetSecondValue"] --> B["v8::internal::maglev  
::CallBuiltin::ReturnCount"]
```

A diagram showing a call from the `GetSecondValue` method of the `MaglevGraphBuilder` class to the `ReturnCount` method of the `CallBuiltin` class. The source box is white with a black border, and the target box is gray with a black border. A blue arrow points from the source to the target.
