

```
TorqueGeneratedWasmFunction  
Data< WasmFunctionData,  
      ExposedTrustedObject >
```

A diagram illustrating a relationship between two C++ classes. At the bottom is a gray box containing the text `v8::internal::WasmFunctionData`. A blue arrow points vertically upwards from this box to a white box above it. The white box contains the text `TorqueGeneratedWasmFunctionData< WasmFunctionData, ExposedTrustedObject >`. This represents that `TorqueGeneratedWasmFunctionData` inherits from or is derived from `v8::internal::WasmFunctionData`.

```
v8::internal::WasmFunctionData
```
