The diagram illustrates a function mapping. On the left, two white rectangular boxes represent source functions: 'v8::internal::FastJsonStringifier::AppendCString' (top) and 'v8::internal::FastJsonStringifier::AppendString' (bottom). On the right, a gray rectangular box represents the target function: 'v8::internal::FastJsonStringifier::AppendCString'. Two blue arrows point from the source boxes to the target box, indicating that both source functions are mapped to the target function.
