

v8::internal::AllStatic

```
classDiagram
    class AllStatic["v8::internal::AllStatic"]
    class Anonymous["v8::internal::anonymous_namespace{compiler.cc}::OptimizedCodeCache"]
    Anonymous --|> AllStatic
```

The diagram consists of two class boxes. The top box, representing `v8::internal::AllStatic`, is divided into three horizontal sections: the top section contains the class name, and the two bottom sections are empty. The bottom box, representing `v8::internal::anonymous_namespace{compiler.cc}::OptimizedCodeCache`, is divided into three horizontal sections: the top section contains the class name, the middle section is empty, and the bottom section contains the methods `+ Get()` and `+ Insert()`. A blue arrow with an open triangular head points from the top edge of the bottom box to the bottom edge of the top box, indicating an inheritance relationship.

v8::internal::anonymous
_namespace{compiler.cc}
::OptimizedCodeCache

+ Get()
