

v8::internal::compiler
::InstructionSelector
::StoreView::StoreView

```
graph LR; A["v8::internal::compiler  
::InstructionSelector  
::StoreView::StoreView"] --> B["graph"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains three lines of C++-style text: 'v8::internal::compiler', '::InstructionSelector', and '::StoreView::StoreView'. A blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the word 'graph'.
