

v8::Shell::ScheduleTermination

v8::Shell::TerminateNow

v8::anonymous_namespace
{d8::cc}::SkipTerminationFor
Fuzzing

```
graph LR; A[v8::Shell::ScheduleTermination] --> C[v8::anonymous_namespace {d8::cc}::SkipTerminationFor Fuzzing]; B[v8::Shell::TerminateNow] --> C;
```

The diagram illustrates a relationship between two V8 Shell functions and a common target. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'v8::Shell::ScheduleTermination' and the bottom box contains 'v8::Shell::TerminateNow'. Two blue arrows originate from the right side of these boxes. The arrow from the top box points to the left side of a larger, gray rectangular box on the right. The arrow from the bottom box also points to the left side of the same gray box. The gray box contains the text 'v8::anonymous_namespace {d8::cc}::SkipTerminationFor Fuzzing'.
