

v8::internal::SamplingThread::Run

```
graph LR; A[v8::internal::SamplingThread::Run] --> B[v8::sampler::Sampler::DoSample];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'v8::internal::SamplingThread::Run'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'v8::sampler::Sampler::DoSample'.
