

v8::internal::PrimitiveArray
Base::SizeFor

```
graph LR; A["v8::internal::PrimitiveArray  
Base::SizeFor"] --> B["v8::internal::TaggedArray  
Base< FixedArray, TaggedArrayShape  
>::OffsetOfElementAt"]
```

A diagram showing a relationship between two V8 internal classes. On the left, a gray box contains the text 'v8::internal::PrimitiveArray' and 'Base::SizeFor'. A blue arrow points from this box to a white box on the right. The white box contains the text 'v8::internal::TaggedArray', 'Base< FixedArray, TaggedArrayShape', and '>::OffsetOfElementAt'.

v8::internal::TaggedArray
Base< FixedArray, TaggedArrayShape
>::OffsetOfElementAt
