

v8::internal::torque  
::ImplementationVisitor  
::VisitMacroCommon

```
graph LR; A["v8::internal::torque  
::ImplementationVisitor  
::VisitMacroCommon"] --> B["v8::internal::torque  
::CSAGenerator::EmitGraph"]
```

A diagram showing a call from a function in v8::internal::torque::ImplementationVisitor to a function in v8::internal::torque::CSAGenerator. The source function is VisitMacroCommon, and the target function is EmitGraph. A blue arrow points from the source box to the target box.

v8::internal::torque  
::CSAGenerator::EmitGraph
