

v8::internal::maglev
::TestTypeOf::PrintParams

v8::internal::maglev
::BranchIfTypeOf::PrintParams

v8::internal::interpreter
::TestTypeOfFlags::ToString

```
graph LR; A["v8::internal::maglev  
::TestTypeOf::PrintParams"] --> C["v8::internal::interpreter  
::TestTypeOfFlags::ToString"]; B["v8::internal::maglev  
::BranchIfTypeOf::PrintParams"] --> C;
```

The diagram consists of three rectangular boxes. Two boxes are on the left, and one is on the right. The box on the right is shaded gray, while the two on the left are white. Two blue arrows point from the right side of each left box to the left side of the right box. The top-left box contains the text 'v8::internal::maglev' followed by '::TestTypeOf::PrintParams' on the next line. The bottom-left box contains 'v8::internal::maglev' followed by '::BranchIfTypeOf::PrintParams' on the next line. The right box contains 'v8::internal::interpreter' followed by '::TestTypeOfFlags::ToString' on the next line.
