

```
v8::internal::anonymous  
_namespace{experimental  
_compiler::cc}::BytecodeAssembler  
::SetQuantifierToClock
```

A diagram showing a call from a function in the v8::internal::anonymous_namespace{experimental_compiler::cc} namespace to the SetQuantifierToClock method of the v8::internal::RegExpInstruction class. The call is represented by a blue arrow pointing from the left box to the right box.

```
v8::internal::RegExpInstruction  
::SetQuantifierToClock
```
