```

The diagram illustrates a relationship between two V8InspectorImpl methods and a v8::Isolate::SetIdle method. Two white rectangular boxes on the left contain the text 'v8_inspector::V8InspectorImpl::idleFinished' and 'v8_inspector::V8InspectorImpl::idleStarted'. Two blue arrows originate from the right side of these boxes and point to a single gray rectangular box on the right containing the text 'v8::Isolate::SetIdle'.
