

```
v8::internal::anonymous  
_namespace{elements::cc}  
::SharedArrayElementsAccessor  
::SetAtomicInternalImpl
```

A diagram showing a call from a function in an anonymous namespace to a static method. A grey box on the left contains the caller's context, and a white box on the right contains the callee's context. A blue arrow points from the caller to the callee.

```
v8::internal::InternalIndex  
::as_int
```
