

heap::base::Worklist
::Local::pop_segment

```
graph LR; A[heap::base::Worklist::Local::pop_segment] --> B[heap::base::internal::SegmentBase::GetSentinelSegmentAddress];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a light gray background and contains the text 'heap::base::Worklist' on the first line and '::Local::pop_segment' on the second line. The right box has a white background and contains the text 'heap::base::internal' on the first line, '::SegmentBase::GetSentinelSegment' on the second line, and 'Address' on the third line.
