

v8::internal::compiler
::CodeAssembler::AtomicCompare
Exchange64

```
graph LR; A["v8::internal::compiler  
::CodeAssembler::AtomicCompare  
Exchange64"] --> B["v8::internal::compiler  
::CodeAssembler::raw_assembler"]
```

A diagram showing a call from the `AtomicCompareExchange64` method in the `v8::internal::compiler::CodeAssembler` namespace to the `raw_assembler` method in the same namespace. The left box is shaded gray, and the right box is white. A blue arrow points from the left box to the right box.
