

v8::internal::wasm  
::WasmInterpreter::WasmInterpreter

```
graph LR; A[v8::internal::wasm::WasmInterpreter::WasmInterpreter] --> B[v8::internal::wasm::InitInstructionTableOnce];
```

A diagram showing a call from the `WasmInterpreter` class to the `InitInstructionTableOnce` function. The left box represents the caller, and the right box represents the callee. A blue arrow points from the left box to the right box.
