

v8::internal::Optimizing  
CompileTaskExecutor::Compile  
Task::Run

```
graph LR; A["v8::internal::Optimizing  
CompileTaskExecutor::Compile  
Task::Run"] --> B["v8::internal::Optimizing  
CompileTaskExecutor::RunCompilationJob"]
```

A diagram showing a call from the `CompileTask::Run` method to the `RunCompilationJob` method. The source box is white with a black border, and the target box is gray with a black border. A blue arrow points from the source box to the target box.
