

v8::internal::wasm
::WasmEngine::LogWrapperCode

```
graph LR; A["v8::internal::wasm  
::WasmEngine::LogWrapperCode"] --> B["v8::internal::Isolate  
::stack_guard"]
```

A diagram showing a pointer relationship between two V8 internal symbols. On the left, a gray rectangular box contains the text "v8::internal::wasm" followed by "v8::internal::WasmEngine::LogWrapperCode" on the next line. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "v8::internal::Isolate" followed by "v8::internal::stack_guard" on the next line. Both boxes have a thin black border.

v8::internal::Isolate
::stack_guard
