The diagram illustrates a dependency or call relationship. Two source functions, 'v8::base::EmulatedVirtualAddressSubspace::AllocatePages' and 'v8::base::EmulatedVirtualAddressSubspace::AllocateSharedPages', are shown on the left. Arrows from both point to a target function on the right, 'v8::base::EmulatedVirtualAddressSubspace::IsUsableSizeForUnmappedRegion'. The target function box is shaded gray, while the source boxes are white.
