

v8_inspector::V8Debugger
Script::GetScriptURL

v8_inspector::V8Debugger
Script::setSourceURL

v8_inspector::V8Debugger
Script::sourceURL

```
graph LR; A["v8_inspector::V8Debugger<br>Script::GetScriptURL"] --> C["v8_inspector::V8Debugger<br>Script::sourceURL"]; B["v8_inspector::V8Debugger<br>Script::setSourceURL"] --> C;
```

The diagram illustrates a relationship between three V8 Inspector script objects. On the left, there are two white rectangular boxes. The top box contains the text 'v8_inspector::V8Debugger Script::GetScriptURL'. The bottom box contains the text 'v8_inspector::V8Debugger Script::setSourceURL'. On the right, there is a gray rectangular box containing the text 'v8_inspector::V8Debugger Script::sourceURL'. Two blue arrows point from the right side of the two white boxes to the left side of the gray box, indicating that both 'GetScriptURL' and 'setSourceURL' methods are associated with or point to the 'sourceURL' property.
