

v8::internal::maglev
::MaglevGraphBuilder
::TryReduceArrayIteratingBuiltin

```
graph LR; A["v8::internal::maglev  
::MaglevGraphBuilder  
::TryReduceArrayIteratingBuiltin"] --> B["v8::internal::maglev  
::MaglevGraphBuilder  
::MaglevSubGraphBuilder  
::EndLoop"]
```

A diagram showing a call from the `TryReduceArrayIteratingBuiltin` method in the `v8::internal::maglev::MaglevGraphBuilder` namespace to the `EndLoop` method in the `v8::internal::maglev::MaglevSubGraphBuilder` namespace. The source box is white and the target box is gray, connected by a blue arrow.

v8::internal::maglev
::MaglevGraphBuilder
::MaglevSubGraphBuilder
::EndLoop
