

v8::internal::UseScratch
RegisterScope::SetAvailableDouble
RegList

```
graph LR; A["v8::internal::UseScratch  
RegisterScope::SetAvailableDouble  
RegList"] --> B[available]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains three lines of text: 'v8::internal::UseScratch', 'RegisterScope::SetAvailableDouble', and 'RegList'. A blue arrow points from the right side of this box to the left side of a second, smaller white box with a black border. This second box contains the word 'available'.
