

v8::internal::StringToBig  
IntHelper::StringToBigIntHelper

```
graph LR; A["v8::internal::StringToBigIntHelper::StringToBigIntHelper"] --> B["v8::internal::StringToIntHelper::set_allow_binary_and_octal_prefixes"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'v8::internal::StringToBigIntHelper::StringToBigIntHelper' on two lines. The right box is gray with a black border and contains the text 'v8::internal::StringToIntHelper::set\_allow\_binary\_and\_octal\_prefixes' on three lines.
