

v8::internal::maglev
::Phi::SetUseRequires31BitValue

```
graph LR; A["v8::internal::maglev  
::Phi::SetUseRequires31BitValue"] --> B["v8::internal::maglev  
::Phi::set_uses_require  
_31_bit_value"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a black border and a white background, containing the text 'v8::internal::maglev' on the first line and '::Phi::SetUseRequires31BitValue' on the second line. The right box has a black border and a light gray background, containing the text 'v8::internal::maglev' on the first line, '::Phi::set_uses_require' on the second line, and '_31_bit_value' on the third line. The blue arrow originates from the right side of the left box and points to the left side of the right box.
