The diagram illustrates a common target for three different source range visitor methods. Three boxes on the left, each containing a `v8::internal::SourceRange` type and a visitor method name, have arrows pointing to a single box on the right. The box on the right also contains a `v8::internal::SourceRange` type and the method name `AstVisitor::MaybeRemoveLastContinuationRange`. The box on the right is shaded gray, while the others are white.
