

v8::internal::compiler
::turbohaft::VariableReducer::Goto

```
graph LR; A["v8::internal::compiler  
::turbohaft::VariableReducer::Goto"] --> B["v8::internal::compiler  
::turbohaft::VariableReducer  
::GetVariable"]
```

A diagram showing a call from the Goto method to the GetVariable method. The Goto method is in a white box on the left, and the GetVariable method is in a gray box on the right. A blue arrow points from the Goto box to the GetVariable box.
