

v8::internal::torque  
::TypeVisitor::ComputeType

```
graph LR; A["v8::internal::torque  
::TypeVisitor::ComputeType"] --> B["v8::internal::torque  
::AbstractTypeDeclaration  
::IsTransient"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'v8::internal::torque' on the first line and '::TypeVisitor::ComputeType' on the second line. The right box is gray with a black border and contains the text 'v8::internal::torque' on the first line, '::AbstractTypeDeclaration' on the second line, and '::IsTransient' on the third line.
