

v8::internal::JSObject
::RawFastPropertyAtCompareAndSwap

```
graph LR; A["v8::internal::JSObject  
::RawFastPropertyAtCompareAndSwap"] --> B["v8::internal::JSObject  
::RawFastPropertyAtCompareAndSwapInternal"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'v8::internal::JSObject' followed by '::RawFastPropertyAtCompareAndSwap' on the next line. The right box is gray with a black border and contains the text 'v8::internal::JSObject' followed by '::RawFastPropertyAtCompareAndSwapInternal' on the next line, with 'SwapInternal' indented further to the right.
