

```
v8::internal::maglev  
::MaglevGraphBuilder  
::TryReduceDatePrototypeGetField
```

A diagram consisting of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains three lines of C++ code. The right box is light gray with a black border and contains the corresponding implementation code, including an anonymous namespace and a static function.

```
v8::internal::maglev  
::anonymous_namespace  
{maglev-graph-builder  
::cc}::AllOfInstanceTypesAre
```
