

v8::internal::torque
::TypeVisitor::ComputeType

```
graph LR; A["v8::internal::torque  
::TypeVisitor::ComputeType"] --> B["v8::internal::torque  
::TypeOracle::GetBitFieldType"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'v8::internal::torque' on the first line and '::TypeVisitor::ComputeType' on the second line. The right box is gray with a black border and contains the text 'v8::internal::torque' on the first line and '::TypeOracle::GetBitFieldType' on the second line. A blue arrow points from the right side of the left box to the left side of the right box.
