

cppgc::Visitor

```
classDiagram
    class cppgc__internal__VisitorBase["cppgc::internal::VisitorBase"]
    class cppgc__Visitor["cppgc::Visitor"]
    cppgc__internal__VisitorBase --|> cppgc__Visitor
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'cppgc::internal::VisitorBase'. A blue arrow points upwards from this box to a white box at the top labeled 'cppgc::Visitor'. This indicates that 'cppgc::Visitor' inherits from 'cppgc::internal::VisitorBase'.

cppgc::internal::VisitorBase
