

v8::internal::maglev
::MaglevGraphBuilder
::BranchBuilder::StartFallthroughBlock

```
graph LR; A["v8::internal::maglev  
::MaglevGraphBuilder  
::BranchBuilder::StartFallthroughBlock"] --> B["v8::internal::maglev  
::MaglevGraphBuilder  
::SetAccumulatorInBranch"]
```

A diagram showing a call from the `StartFallthroughBlock` method of the `BranchBuilder` class to the `SetAccumulatorInBranch` method of the `MaglevGraphBuilder` class. The source box is white and the target box is gray.
